INDEX TO Vol. V (B).

AUTHORS' INDEX.

Aiyar, R. Gopala .. *See* Subramaniam and Aiyar.

Aiyar, R. Gopala, and Panikkar, N. Kesava — Observations on the swarming habits and lunar periodicity of *Platynereis* sp. from the Madras harbour, 245.

Akhtar, S. A. .. *Chabertia Rishati* N. Sp.—A new nematode parasite of camel, 45.

Ayyangar, G. N. Rangaswami, and Reddy, T. Venkataramana — Chlorophyll deficiencies in sorghum—xantha and patchy albino, 183.

Ayyangar, G. N. Rangaswami, Ayyar, M. A. Sankara, and Rao, V. Panduranga — Linkage between pulple leaf-sheath colour and juiciness of stalk in sorghum, 1.

Ayyangar, G. N. Rangaswami, Rao, V. Panduranga, Nambiar, A. Kunhikoran, and Ponnaiah, B. W. X. — The occurrence and inheritance of waxy bloom on sorghum, 4.

Ayyar, M. A. Sankara .. *See* Ayyangar and others.

Basir, M. A. .. *See* Mirza and Basir.

Chand, Hukam .. Study of the fungus flora of the Lahore soils, 324.

Chaudhuri, H. .. Rai Bahadur Dr. Shiv Ram Kashyap (1882–1934) (obituary notice), 333.

C. R. N. .. Dewan Bahadur Dr. L. K. Ananthakrishna Iyer (1861–1937) (obituary notice), 341.

Dixit, S. C. .. The chlorophyceæ of the Bombay Presidency, India, I, 16.

Harshey, K. R. .. On two new trematodes of the genus *Opegaster* Ozaki, with a systematic discussion on the families *Opecœlidæ Ozaki*, 1925 and *Coitocœcidæ* Ozaki, 1928, 64.

Jones, S. .. Observations on the breeding habits and development of certain brackish water fishes of Adyar, Madras, 261.

Joshi, A. C. .. Contributions to the embryology of the menispermaceæ. I. *Cocculus villosus* DC, 57.

Joshi, A. C., and Kajale, L. B. .. Fertilisation and seed development in Amarantaceæ, 91.

Kadam, B. S., and Kulkarni, R. K. — Genetics of the *Bansi* wheat of the Bombay-Deccan and a synthetic Khapli—Part II, 169.

Kajale, L. B. .. *See* Joshi and Kajale.

Embryology of *Achyranthes aspera* Linn., 195.

Kostoff, Dontcho .. Chromosome behaviour in *Triticum* hybrids and allied genera. I. Interspecific hybrids with *Triticum Timopheevi*, 231.

Studies on polyploid plants—XVI. *Nicotiana rustica* × *Nicotiana tabacum* amphidiploid, 237;

XVII. *Nicotiana multivalvis* ($2n = 48$) × *Nicotiana suaveolens* ($2n = 32$) amphidiploid ($2n = 80$), 241.

Kulkarni, R. K. .. *See* Kadam and Kulkarni.

Lal, M. B. .. Studies on the trematode parasites of birds, Part I. Value of different characters in the classification of Avian trematodes, 33.

L. R. .. Professor K. K. Mathur (obituary notice), 339.

Mahal, H. S. .. Antiseptics and anthelminthics, Part III.—Pharmacology of certain flavones with special reference to their anthelminthic action, 186.

Mahendra, B. C. .. A note on the distinctive characters of the Indian species of *Cylindrophis* Wagler, 109.

Mello, I. Froilano de, and Meyrelles, Caetano Corrêa de — On the classification and schizogonic cycle of a blood parasite of the Indian lizard *Calotes versicolor* Daud. Subspecies *Major* Blyth, 119.

Meyrelles, Caetano Corrêa de — *See* Mello and Meyrelles.

Mirza, M. B., and Basir, M. A. — A report on the guinea-worm found in *Varanus* sp., with a short note on *Dracunculus medinensis*, 26.

Misra, J. N. .. The Zygnemaceæ of Kashmir—I, 110.

Nambiar, A. Kunhikoran .. *See* Ayyangar and others.

Panikkar, N. Kesava .. The morphology and systematic relationships of a new Boloceroidarian from brackish-water near Madras, together with an account of its asexual reproduction, 76.

See Aiyar and Panikkar.

Ponnaiah, B. W. X. .. *See* Ayyangar and others.

Randhawa, M. S. .. Genus *Zygnemopsis* in Northern India, 297.

Ranganathan, V. .. Conductometric method for the estimation of Micro-quantities of arginine, 224.

Rao, B. Rama, and Rao, L. Rama — On "Bidalotite", a new orthorhombic pyroxene derived from cordierite, 290.

Rao, C. Bhashyakarla .. A new species of *Anabæna* (*Anabæna ambigua* Sp. Nov.), 101.

Rao, L. Rama .. *See* Rao and Rao.

Rao, V. Panduranga .. *See* Ayyangar and others.

Reddy, T. Venkataramana — *See* Ayyangar and Reddy.

Subramaniam, M. K. .. An analysis of certain criticisms against the existence of the Golgi apparatus, 48.

Subramaniam, M. K., and Aiyar, R. Gopala — An analysis of the shape and structure of Golgi bodies in the eggs of invertebrates with a note on the probable modes of origin of the Golgi network, 142.

Venkateswarlu, J. .. A contribution to the embryology of Sonneratiaceæ, 206.

Vidyarthi, R. D. .. New avian trematodes of the sub-subfamily *Cotylurini* Dubois 1936, (family *Strigeidæ*, Ralliet 1919), 315.

TITLE INDEX.

Amarantaceæ, fertilisation and seed development (Joshi and Kajale), 91.

Anabæna (*Anabæna ambigua* sp. nov.), a new species (Rao), 101.

Antiseptics and anthelminthics, Part III (Mahal), 186.

Arginine, conductometric method for the estimation of micro-quantities (Ranganathan), 224.

"Bidalotite", a new orthorhombic pyroxene derived from cordierite (Rao and Rao), 290.

Calotes versicolor Daud. sub-species *Major* Blyth, Indian lizard, on the classification and schizogonic cycle of a blood parasite (Mello and Meyrelles), 119.

Chabertia Rishati N. Sp.—a new nematode parasite of camel (Akhtar), 45.

Chlorophyceæ of the Bombay Presidency, India—I (Dixit), 16.

Chromosome behaviour of *Triticum* hybrids and allied genera I (Kostoff), 231.

Conductometric method for the estimation of micro-quantities of arginine (Ranganathan), 224.

Cylindrophis Wagler, Indian species, a note on the distinctive characters (Mahendra), 109.

Embryology of *Achyranthes aspera* Linn. (Kajale), 195.

Embryology of Sonneratiaceæ, a contribution (Venkateswarlu), 206.

Embryology of the Menispermaceæ, contributions, I (Joshi), 57.

Fishes, brackish water, certain, of Adyar, Madras, observations on the breeding habits and development (Jones), 261.

Fungus flora of the Lahore soils, study (Chand), 324.

Genetics of the *Bansi* wheat of the Bombay-Deccan and a synthetic Khapli—Part II (Kadam and Kulkarni), 169.

Golgi apparatus, an analysis of certain criticisms against the existence (Subramaniam), 48.

Golgi bodies in the eggs of invertebrates, an analysis of the shape and structure, with a note on the probable modes of origin of the Golgi network (Subramaniam and Aiyar), 142.

Iyer, Dewan Bahadur Dr. L. K. Ananthakrishna, (1861–1937) (obituary notice) (C. R. N.), 341.

Kashyap, Rai Bahadur Dr. Shiv Ram, (1882–1934) (obituary notice) (Chaudhuri), 333.

Mathur, Professor K. K. (obituary notice) (L. R.), 339.

Morphology and systematic relationships of a new boloceroidarian from brackish-water near Madras, together with an account of its asexual reproduction (Panikkar), 76.

Opegaster Ozaki, genus, on two new trematodes, with a systematic discussion on the families *Opecœlidæ* Ozaki, 1925, and *Coitocœcidæ* Ozaki, 1928 (Harshey), 64.

Pavlov, Professor I. P., (1849–1936) (obituary notice), 347.

Platynereis sp. from the Madras harbour, observations on the swarming habits and lunar periodicity (Aiyar and Panikkar), 245.

Polyploid plants, studies, XVI, XVII (Kostoff), 237, 241.

Sorghum, chlorophyll deficiencies—Xantha and Patchy albino (Ayyangar and Reddy), 183.

Sorghum, linkage between purple and leaf-sheath colour and juices of stalk (Ayyangar and others), 1.

Sorghum, the occurrence and inheritance of waxy bloom (Ayyangar and others), 4.

Trematode parasites of birds, studies, Part I (Lal), 33.

Trematodes, new avian, of the sub-subfamily *Cotylurini* Dubois 1936, (family *Strigeidæ*, Ralliet 1919) (Vidyarthi), 315.

Varanus sp., a report on the guinea-worm found in, with a short note on *Dracunculus medinensis* (Mirza and Basir), 26.

Zygnemaceæ of Kashmir—I (Misra), 110.

Zygnemopsis, genus, in Northern India (Randhawa), 297.
